DESCRIPTION

Detachable Hood 762 for FlexiTog Jackets

Insulated detachable hood for the X28JP Jacket. Please note this is a special order item.

Featuring 200g of wadding, this insulated detachable hood ensures the wearer's head remains warm. even in very low temperatures.

The hood also features high visibility detailing, making it easy for colleagues to identify the wearer in low light environments.

Clothing durability is crucial for those who work in chillers, freezers, warehouses and in outside locations, which is why this detachable hood features HTTY Rip-stop fabric technology.

And as with all FlexiTog garments, this separate hood meets EU manufacturing standards.

- 200g Wadding - Better insulation and heat retention
- Hi-Viz Detailing - Better visibility in low light areas
- HTTY Rip-stop fabric for increased durability
- CE Certified manufactured to European standards
