DESCRIPTION

The FA7 moving edge knife is a must-have when working in the warehouse. Ideal for cutting pallet strapping, shrink wrap and single wall cardboard. This GR8 Knife branded knife features a 'Moving edge' system that cuts down on snagging and needs less force. Accidents are reduced thanks to the enclosed blade, which protects the fingers and minimises cuts when carried in the pocket. The blade can be changed quickly and easily.

- Moving Edge - Allows the blade to move in a slicing action while the Safety Knife cuts. Reduces snagging and requires less force.
- Enclosed blade - Prevents cut related accidents with pocket and finger safe enclosed blade
- Light Weight robust design
- Built-in tape cutter - Perfect for box opening
- Removeable blade - Time saving blade change - see FA7SB
