DESCRIPTION

The thermal liner glove is preferred by many due to its ultra thin construction and unique soft touch. It can be worn with any of our freezer or chiller gloves and mittens providing extra warmth. This glove can also be worn by itself if you are looking for something that will protect your hands from chilled temperatures.

- Material - Polyester
- Ultra thin - Can be worn under other gloves to add warmth and comfort
- One piece construction means there are no seams on high wear areas
- Elasticated wrist keeps the glove in place and hugs the hand, making it ideal for wearing as a liner glove
- Stretch fit ensures a snug fit to the skin for increased warmth and comfort
- Wrist binding increases durability and wear
- Hollow fibre yarn helps trap air, providing better warmth and no extra bulk
