DESCRIPTION

This is a high quality insulated freezer glove, specifically designed for those working in cold conditions.

It provides comfort, warmth and flexibility for its wearer along with ultimate dexterity to ensure that it doesn't get in the way of work.

Specially combined materials and the freezer glove's pre-curved design, combine to make an all-round freezer glove.

- This garment uses specialist materials so that it can withstand 30 washes without losing its thermal performance.
- CE CERTIFIED
- Manufactured to European standards
- Wing Thumb Design - No seams on major wear areas increasing durability
- Dual gauntlet / knitted wrist cuff - Greater flexibility, use as a gauntlet or standard knit wrist
- Pre-curved ergonomic design - Fits the natural curvature of the hand leading to less fatigue for the wearer
- Taslon Back - Greater flexibility with reduced wearer fatigue
- Durable fabric palm - Increased dexterity and durability
- Sherpa fleece lining - Traps more air to increase warmth
