## DESCRIPTION

---

### Thin Insulated Balaclava

An extremely warm yet lightweight balaclava featuring hollow fibre technology for superior heat retention. Thanks to its close-fitting design, this item can be worn underneath other head protection for additional warmth.

Its double-knit construction makes it highly effective at trapping warm air, while the long neck means the wearer won't experience any unwanted draughts.

A one-size-fits all, open-face thermal work balaclava from one of the world's leading garment insulation innovators.

Ideal for freezer/chiller work, as well as for work and recreation in outdoor settings, particularly during the winter months.

- Long Neck - Designed to protect the neck from exposure to the cold and fit underneath any jacket
- Double Knit - Traps more air to create a great insulating properties.
- Acrylic hollow fibre - Traps more air for better heat retention
- Open face - Increased visibility
- One size fits all
- Lightweight
