Job role: Driver

**CE** Certification 1: CE

Updated On: 24/11/2022

## DESCRIPTION

---

### Replaceable Thermal Boot Liners

Replaceable boot liner for the Ice Diamond ID503, manufactured to the very highest standards. These Sherpa fleece liners offer cost effective maintenance and longevity for your Ice Diamond boot. The wearer's feet are kept warm and dry at all times because sweat is removed to the exterior of the liner fabric. Alongside these advanced wicking properties, the fleece lining keeps feet warm by trapping more air, while special gripping material ensures the liner doesn't slip inside the boot.

- Hygienic wicking properties - Sweat is carried to the outside of the liner to keep the foot warm and dry at all times
- Sherpa fleece lining - Traps more air to increase warmth
- Heel Grip - Patch of gripping material on the back of liner to ensure the liner doesn't slip up & down inside the boot. This protects against wear whilst providing additional comfort.
- Manufactured in India
