Updated On: 23/09/2022

DESCRIPTION

A durable thermal sock designed to keep you warm and stay in place no matter how active you are. These socks can be used as a stand alone or alongside another pair of socks such as the [Dalby 86](#) as a liner sock for maximum warmth.

Benefits

Looped Lining - For extra wearer comfort and warmth

Dual elasticated - To keep socks in place

Thick toes - Great durability and comfort with extra protection against the cold

Dual layered - Added comfort and durability

Length - calf length
