

ENDURANCE ACTIVE JACKET

Created and used by order pickers in cold stores all over Europe, this jacket is loved for its durability and lightweight, highly breathable properties. Its thermoregulating sports insulation has proved pivotal in providing the perfect solution for those that are active in cold temperatures

Warm & Breathable

Using Vivo Insulation, a patented product from Clo Insulation, placed in high sweat areas to maximise the breathability of the garment, makes the garment 30% more breathable than the industry standard. Along with the Breatheasy panel to regulate air flow and temperature, the Endurance Active is the perfect jacket for high activity job roles.

Durability

Using 310gsm Endurance Fabric for maximum strength and durability placed in high wear areas such as the arms and front of the jacket to increase longevity of the garment

Lightweight

The combination of performance insulation and fabrics means that this jacket is 38% lighter than a traditional freezer jacket, whilst maintaining a perfect warmth-to-weight ratio for pickers.

Use with X28T trousers

Sizes: XS - 6XL | Order Code: X28B

Chest pocket with flap • Voicepick system compatible • Areas for logo embroidery front and back

Typical Application

Used in freezers and cold store environments for temperatures ranging from -5°C to -30°C, favoured by pickers and high activity workers due to it being lightweight and highly breathable.

Important! Certification for this product is only valid when worn with corresponding / certified salopettes
