

ACTIVE CHILL JACKET

A first of it's kind, the Active Chill Jacket is designed to enhance the performance and comfort of personnel working in areas at a controlled temperature of +5°C to -5°C.

Thermal Regulating Insulation

Including sports insulation for the perfect balance of warmth and breathability, resulting in maintained warmth. This spec of insulation would normally only be found in sports clothing, however we have used it for the outstanding thermoregulating performance that it has.

Lightweight & Flexible

FlexEasy is a 4-way stretch fabric panel joining the sleeve to the body on the inside and outside designed to offer greater flexibility and easy movement of the arms.

Certified Warmth

Certified to EN14058, The Active Chill Jacket is designed to enhance the performance of those working in indoor areas that are at a controlled temperature of +5°C to -5°C

Sizes: **XS - 6XL** | Order Code: **X14J**

Clo Insulation • High fleece collar • Glove cuffs • 3 Internal pockets • 7 external pockets including sleeve pockets • Ergonomic curved design on the bottom of the jacket • Elasticated waist • YKK zipper • Highly visible yellow fabric • Areas for logo embroidery front and back

Typical Application

Used in +5° to -5°C 'chilled' areas and favoured by those in higher activity job roles due to its breathability, flexibility and light weight.

Important! Certification for this product is only valid when worn with corresponding / certified salopettes
